Education

Guru Nanak Institutions of Technical Campus Bachelor of Technology (B-Tech) in Computer Science and Engineering (IOT)	2024-2028
Narayana junior college Intermediate (MPC)	2022-2024
Marks:922 /1000	
SR prime school Secondary school certificate (SSC)	2022
GPA:9.5/10	

Project

-
- **Hand Gesture Recognition System**
 - Developed a real-time Hand Gesture Recognition system using python, OpenCV, and MediaPipe that detects and classifies hand gestures through live webcam feed.
 - Utilized MediaPipe Hands to extract 21 hand landmarks per frame, enabling accurate gesture identification with minimal latency.
 - Implemented gesture classification logic to recognize multiple gesture and mapped them to corresponding actions, making it applicable for touchless control interfaces.
 - **Technologies Used:** Python, OpenCV, MediaPipe.

Technical Skills

Programming Languages: Python, C, Java, C++

Web Development: HTML, CSS, SQL

Areas of Interest: Problem Solving, Data Structures and Algorithms

Tools & Libraries: OpenCV, MediaPipe, Git

Technologies: AI Basics, IOT

Certificates

Java programming for beginners: Simplilearn

Python: Cisco networking Academy

C++: Infosys Springboard

Modern AI: CISCO

Hackathon

Denovate 24-hour Hackathon

-
- Built a **content strategy Agent** to generate optimized content plans based on user requirements.
 - Applied problem-solving and logical design to automate content structuring and idea generation.
 - Worked in a team to deliver a functional prototype within 24 hours, strengthened skills in teamwork, time management, and rapid development.
